I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, Washington, D.C. 2023

Incke Sweener

Signal Suche Sevency

Case 7995

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In the application of

PETER W. HAMILTON, ET AL.

Group Art Unit 1772

Serial No. 09/532,576

Examiner A. A. Chevalier

Filed March 22, 2000

Confirmation No.: 8660

For HIGH BOND STRENGTH,

REPOSITIONABLE ADHERENT

SHEET

<u>PETITION UNDER 37 CFR 1.181 TO</u> WITHDRAW THE EXAMINER'S HOLDING OF ABANDONMENT

Commissioner for Patents Washington, D.C. 20231 Dear Sir:

The Commissioner is hereby petitioned under 37 CFR 1.181 to withdraw the Examiner's holding of abandonment of the above-identified case for an alleged failure to timely respond to the Office Action mailed January 29, 2002. Applicants believe that there is no fee required with the filing of this petition; however, the Commissioner is hereby authorized to charge payment of any fees associated with this communication, including fees required to make any additional copies of this petition, to Deposit Account No. 16-2480 in the name of The Procter & Gamble Company therefor.

REMARKS

In regards to the above-identified Application, Applicants received a Notice of Abandonment mailed by the PTO on August 12, 2002 (copy enclosed) stating that this Application is abandoned in view of Applicants' failure to timely file a response within the statutory period of six months from the mailing date of the Office Action. Applicants submit that the Examiner's holding of abandonment is erroneous for the following reasons:

09/26/2002 KWASHING 00000013 162460 | 09032576

01 FC:122

130.00 CH

- 1. On February 4, 2002, Applicants received a non-final Office Action mailed by the PTO on January 29, 2002 (copy enclosed).
- 2. On February 19, 2002, Applicants' attorney filed a proper response to said Office Action. The response was sent via facsimile to the Examiner's attention at Technical Center 1700 (copy enclosed). The Auto-Reply Facsimile Transmission confirmation sheet (copy enclosed) generated by the PTO indicates that 5 pages (including the cover page), which constituted Applicants' response, were received by the PTO on February 19, 2002 at 3:09 p.m., EST.
- 3. Applicants have timely responded to all previous Office Actions regarding the above-identified Application and have no history of failure to prosecute the above-identified Application, as indicated by a review of Applicants' file record (copy enclosed).

In view of the foregoing remarks, Applicants seek favorable action by the Commissioner to reverse the Examiner's holding of abandonment of the above-identified Application. Accordingly, Applicants respectfully request that the response to the Office Action be viewed as having been filed in a timely fashion and that the processing of the Application to issuance be continued.

Respectfully submitted,

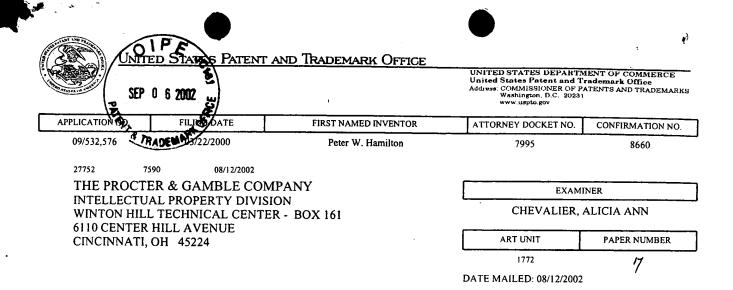

Peter D. Meyer

Art Unit: 1772

DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-57, drawn to an adherent sheet material, classified in class 428, subclass
 174.
 - II. Claim 58, drawn to the method of making an adherent sheet material, classified in class 427, subclass 207.1.
 - III. Claims 59-62, drawn to method for using an adherent sheet material, classified in class 150, subclass 60.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions Group II and Group I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as coextruding all the layers together and then embossing all the layers to impart the protrusions.
- 3. Inventions Group I and Group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a

Application/Control Number: 09/532,576 Page 3

Art Unit: 1772

materially different process such as attaching the material to a surface, such as a wall, and not applying force to collapse the protrusions. Thus, the adherent sheet material is used to add texture to the wall.

- 4. Inventions Group II and Group II are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is distinct from the method of making and the method of using, restriction is proper between said method of making and method of using. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and have acquired a separate status in the art because of their recognized divergent subject matter and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
- 6. A telephone call was made to Paul M. Ulrich on January 18, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Page 4

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alicia Chevalier whose telephone number is (703) 305-1139. The Examiner can normally be reached on Monday through Thursday from 8:00 a.m. to 5:00 p.m. The Examiner can also be reached on alternate Fridays

If attempts to reach the Examiner are unsuccessful, the Examiner's supervisor, Blaine Copenheaver can be reached by dialing (703) 308-1261. The fax phone number for the organization official non-final papers is (703) 872-9310. The fax number for after final papers is (703) 872-9311.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose phone number is (703) 308-0661.
